# **Black Dog Watershed Management Commission**

### AGENDA Wednesday, June 21, 2023 5:00 P.M.

#### **COMMISSIONERS:**

Curt Enestvedt, Chair Mike Hughes, Vice Chair Scott Thureen, Secretary/Treasurer Rollie Greeno Lynette Dunsworth Greg Helms, Alternate

- I. Approval of Agenda
- II. Approval of Minutes May 17, 2023
- III. Approval of Accounts Payable
- IV. Review Budget Performance Reports
- V. Approval of 2022 Annual Activity Report
- VI. Miscellaneous
- VII. Adjournment

The City of Burnsville and Black Dog Watershed Management Organization do not discriminate on the basis of race, color, national origin, sex, religion, age, or disability in the admission or access to, or treatment or employment in, its programs, activities, or services.

To obtain this information in alternative forms such as braille, large print, audiotape or qualified readers, please contact the City of Burnsville. Telephone (952) 895-4400, TDD (952) 895-4567.

# **Black Dog Watershed Management Commission**

# Agenda Background June 21, 2023

I. <u>Approval of Agenda</u>

Agenda enclosed.

**<u>Action Requested</u>**: A motion be considered to approve the Agenda.

II. Approval of Minutes from the May 17, 2023 Meeting

Minutes enclosed.

Action Requested: A motion be considered to approve the Minutes from the May 17, 2023 meeting.

III. Approval of Accounts Payable

Accounts payable list enclosed.

Action Requested: A motion be considered to approve the accounts payable list as submitted by staff.

IV. <u>Review of Budget Performance Reports</u>

Current Budget Performance Reports enclosed.

Action Requested: No formal action required.

V. Approval of 2022 Annual Activity Report

The Commission is required to generate and distribute an Annual Activity Report. Enclosed is a "Draft" of the 2022 Annual Activity Report for the Commission's review and approval

<u>Action requested</u>: Consider a motion to approving the annual activity report and authorizing staff to distribute to the appropriate parties.

- VI. Miscellaneous
- VII. Adjournment

# DRAFT Meeting Minutes May 17, 2023

#### MEMBERS PRESENT

**MEMBERS ABSENT** 

Curt Enestvedt, Chair Mike Hughes, Vice Chair Scott Thureen, Secretary/Treasurer Rollie Greeno (arrived 5:02pm) Lynette Dunsworth Greg Helms, Alternate

#### **OTHERS PRESENT**

Karen Chandler – Barr Engineering Greg Williams – Barr Engineering Samantha Berger – City of Apple Valley Anne Sawyer – MN Board of Water and Soil Resources (BWSR) Curt Coudron – Dakota County Soil & Water Conservation District Daryl Jacobson – BDWMO Administrator Tammi Carte – BDWMO Secretary

Curt Enestvedt, Vice Chair, called the May 17, 2023 meeting to order at 5:00pm.

#### I. <u>Approval of Agenda</u>

Motion by Hughes, second by Thureen, to approve the May 17, 2023 Agenda as presented.

Ayes – Enestvedt, Hughes, Thureen Nays – None

#### **Motion Carried Unanimously**

#### II. Approval of Minutes from the April 19, 2023 Meeting

Motion by Hughes, second by Thureen, to approve the April 19, 2023 Minutes as presented.

Ayes – Enestvedt, Hughes, Thureen Nays – None

#### **Motion Carried Unanimously**

#### III. Approval of Accounts Payable

**Motion by** Thureen, second by Hughes, to approve accounts payable to Barr Engineering in the amount of \$11,122.90 for services from April 1, 2023 through April 28, 2023; and, to Campbell Knutson in the amount of \$385.00 for April 2023 general services.

Ayes – Enestvedt, Hughes, Thureen Nays – None

#### **Motion Carried Unanimously**

#### IV. <u>Review Budget Performance Reports</u>

Daryl Jacobson, BDWMO Administrator, shared the WMO's finances look good. The Commission has a healthy fund balance.

#### **No Formal Action Required**

#### V. Approval of the Liability Coverage Waiver form

Each year in conjunction with completing the Black Dog WMO's insurance application the Commission is required to complete a Liability Coverage Waiver Form. This form states whether or not the WMO wishes to waive the statutory tort liability limits. Historically, the Black Dog WMO has chosen not to waive the monetary limits on tort liability established by MN statutes.

**Motion by** Hughes, second by Thureen, to approve the liability coverage waiver form, not waiving the monetary limits on municipal tort liability established by MN Statutes 466.04.

Ayes – Enestvedt, Hughes, Thureen, Greeno Nays – None

#### **Motion Carried Unanimously**

#### VI. Approval of the Draft 2024 Work Plan and Budget

A draft of the 2024 Work Plan and Budget was provided to the Commission for review prior to tonight's meeting. Per the BDWMO Joint Powers Agreement, the Commission is to send out a proposed budget for 2024 by July 1, 2023.

Karen Chandler, Barr Engineering, reviewed the proposed 2024 Work Plan at tonight's meeting. The proposed Plan is similar to past years. A new item in the 2024 Plan is the development of a template for water monitoring and for goal tracking. The lakes monitored changes every year.

Daryl Jacobson, BDWMO Administrator, reviewed the proposed 2024 Budget with the Commission. The proposed budget is similar to previous years. Administrative services may increase once the City of Burnsville's compensation study is completed. The Commission is earning a good amount of interest on funds and will need to decide how to allocate interest revenue. Earned interest revenue will increase in 2024. The monitoring wording in the budget and plan documents need to be updated to match each other. Include the number of years between audits in the 2024 budget.

**Motion by** Thureen, second by Hughes, to approve the 2024 Work Plan; and, the 2024 Budget with the changes discussed at the meeting, for distribution to member cities.

Ayes – Enestvedt, Hughes, Thureen, Greeno Nays – None

#### **Motion Carried Unanimously**

#### VII. Miscellaneous

- 1. Anne Sawyer, BWSR, was introduced to the Committee. Anne has a passion to help others understand how important science is in our lives.
- 2. The next Black Dog WMO meeting is scheduled for June 21, 2023.
- 3. Samantha Berger City of Apple Valley talked about the Whitney Pond Expansion project. Apple Valley is working with Barr Engineering on this potential project. The expansion would be on the Apple Valley side with an estimated cost of \$700,000 \$1,000,000. There are possible grant funds available to use towards the cost of this project.
- 4. Samantha Berger City of Apple Valley announced the rain garden by the parking lot at Lac Lavon should be completed by fall 2023.

#### VIII.<u>Adjournment</u>

Motion by Hughes, second by Thureen, to adjourn at 5:31 pm.

Ayes – Enestvedt, Hughes, Thureen, Greeno Nays – None

#### **Motion Carried Unanimously**

Thank you for choosing us as your Coverage carrier. The following information is to assist you in reviewing your Billing Invoice.

Billing Inquiries: CONTACT YOUR AGENT FOR QUESTIONS ON YOUR AGREEMENT OR CHANGES IN COVERAGE. For billing inquiries, please call 1-612-766-3000

#### **BILLING PROCEDURES**

New Agreements and renewals: If your Agreement is issued after the date that coverage began, your first Billing Invoice for the agreement may include more than one installment payment due.

Application of Payments and Cancellation: If you pay more than the Minimum Due, the extra payment will be applied to your next installment proportionately to all agreements on your account. For Accounts owned on agreements with the same Due Date, the payment will be applied proportionately to all agreements with the same Due Date.

Minimum Due is the amount to pay to avoid any agreements on your account from going into a late pay status which could cause cancellation of coverage. If you fail to pay the Minimum Due by the Due Date, a Direct Notice of Cancellation for Non Payment may be issued for one or more agreements on your account. If your account has more than one agreement and you pay less than the Minimum Due, your payment will be applied first to amounts owed on agreements with the oldest balance due.

If we receive a payment after the cancellation effective date and we elect not to reinstate your agreement, the payment will be applied toward any unpaid earned premium on your account before any remainder is refunded.

After an agreement is cancelled, we will bill you for any unpaid earned premium. If you do not pay, the matter may be referred to collections.

Audit Premium: Any Audit Premium owed will be included in both Current Balance and Minimum Due balance shown on the Billing Invoice. Payment of Audit Premium is due in full by the Due Date. If Audit Premium is owed, your payment may be applied first to Audit Premium owed and then to amounts owed on agreements with the earliest Due Date. If special arrangements are needed for repayment of audit premium you MUST contact the Billing Unit at the number shown above for consideration of any such arrangements.

Refunds: Any refund due will be mailed from our office within 15 days after the Invoice date.

**Payment address:** ALL PAYMENTS SHOULD BE SENT TO OUR PAYMENT PROCESSING CENTER ALONG WITH THE PAYMENT COUPON. The address change from below is printed on the back of the payment coupon. If needed it may also be sent along with your payment to the Payment Processing Center at:

222 South Ninth Street, Suite 2700 Minneapolis, MN 55402 . Please do not send any other correspondence to the payment processing center.

#### CHANGE OF ADDRESS AND/OR NAME PLEASE FILL IN THE NAME, AGREEMENT NUMBER AND CHECK APPROPRIATE BOX

# **2022 ANNUAL ACTIVITY REPORT**

Prepared for Black Dog Watershed Management Commission

June 2023

#### 2022 BOARD MEMBERS

The Black Dog Watershed Management Organization (WMO) was established by a joint powers agreement. The member cities appoint Board Members (and alternates) to serve three-year terms. The 2022 Black Dog WMO Board Members and the city/cities they represent are listed below:

| Board | Members:  | Term Ending   |
|-------|---|---------------|
| 1.    | Curtis Enestvedt (Chair)<br>Representing the City of Burnsville   | November 2023 |
| 2.    | Mike Hughes (Vice-Chair)<br>Representing the City of Burnsville   | November 2023 |
| 3.    | Scott Thureen (Secretary/Treasurer)<br>Representing the City of Lakeville                                       | November 2023 |
| 4.    | Tom Harmening<br>Representing the City of Burnsville<br>[Resigned at end of term; seat vacant in December 2022] | November 2022 |
| 5.    | Rollie Greeno<br>Representing the Cities of Apple Valley and Eagan  | November 2023 |

| Alterr | nate Board Members:  | Term Ending   |

| 2.     | Greg Helms<br>Representing the Cities of Apple Valley and Eagan  | November 2023 |
| 3.     | Natalie Walker<br>Representing the City of Lakeville   | November 2023 |

#### **CONSULTANTS**

In accordance with Minnesota Statutes, Section 103B.227, Subdivision 5, the Black Dog Watershed Management Commission solicited interest proposals for engineering consulting, legal services, and auditor services in January 2022. As the statutes require the solicitation to occur every two years, the Black Dog Watershed Management Commission will solicit proposals again in 2024. In 2022, the Black Dog Watershed Management Commission Board retained services from the following consultants:

| Engineering: | Barr Engineering Co.<br>Karen Chandler<br>4300 MarketPointe Dr.<br>Minneapolis, MN 55435<br>Phone: (952) 832-2600  |
|--------------|--|
| Legal:       | Campbell, Knutson<br>Attorneys at Law<br>Joel Jamnik<br>Eagandale Office Center<br>1380 Corporate Center Drive<br>Eagan, MN 55121<br>Phone: (651) 452-5000 |
| Auditor:     | MMKR:<br>Certified Public Accountants<br>James Eichten<br>5353 Wayzata Boulevard<br>Suite 410<br>Minneapolis, MN 55416<br>Phone: (952) 545-0424            |

The Black Dog WMO currently does not employ any staff. Administrative support is provided by the City of Burnsville.

Administrator

City of Burnsville Daryl Jacobson 13713 Frontier Ct. Burnsville, MN 55337 Phone: (952) 895-4574

Website:

www.blackdogwmo.org

#### PERMITS AND VARIANCES

The Black Dog WMO does not have a permit program.

#### WETLAND BANKING

The Black Dog WMO does not have a wetland banking program.

#### STATUS OF LOCAL PLAN ADOPTION AND IMPLEMENTATION

The Black Dog WMO adopted the 2022 Watershed Management Plan in November 2022. The member cities are required to update their official controls and/or local water management plans as needed to conform to the 2022 Black Dog WMO Plan, per Minnesota Statute 103B.235. Each of the member cities updated their local water management plans concurrent with updates to their respective 2040 Comprehensive Plans. No additional edits are required to conform to the 2022 Watershed Management Plan. Approval of local water management plans is summarized in the following table.

| City         | Date of Black Dog WMO<br>Approval | Date of City Adoption |  |  |
|--------------|-----------------------------------|-----------------------|--|--|
| Apple Valley | July 18, 2018                     | November 29, 2018     |  |  |
| Burnsville   | September 20, 2017                | November 6, 2017      |  |  |
| Eagan        | December 19, 2018                 | March 2, 2020         |  |  |
| Lakeville    | February 20, 2019                 | October 7, 2019       |  |  |

## 2022 Black Dog WMO Activities

- Completed work on 2022 Black Dog WMO Watershed Management Plan (Plan). The Black Dog WMO distributed the Plan for formal 60-day review on May 12, 2022. The Black Dog WMO responded to formal comments and hosted a public hearing on the draft Plan on August 17, 2022. The Administrator and Engineer presented the draft Plan to the Board of Water and Soil Resources (BWSR) Central Region Subcommittee on October 6, 2022. The BWSR Board approved the draft Plan in October, 2022 and the Black Dog WMO Commissioners adopted the Plan on November 16, 2022.
- Participated in the Metropolitan Council's Citizen-Assisted Monitoring Program (CAMP) for the following strategic water bodies:
  - Crystal Lake
     Keller Lake
     Kingsley Lake
  - Lac Lavon Orchard Lake

Completed water quality trend analyses on these lakes using the information gathered through CAMP and the more detailed Black Dog WMO monitoring on Lac Lavon.

- Performed detailed (management level) monitoring on Lac Lavon, as recommended in the 2012 Black Dog WMO Watershed Management Plan. Monitoring activities included water quality monitoring and aquatic plant surveys. The water quality monitoring included collecting samples on 11 occasions—ice-out and then May through September, twice per month. On each monitoring occasion, analytical samples were collected at seven depths at the deepest spot in the lake—a surface sample, plus six samples at one-meter intervals from three to eight meters. All samples were analyzed for total phosphorus. In addition, Secchi disc readings were taken, and the surface samples were analyzed for chlorophyll-a. Field measurements of temperature, dissolved oxygen, pH, redox potential, and specific conductivity were recorded at one meter intervals at the monitoring location. Turbidity field measurements were also be taken on the surface water sample at the monitoring location. Two aquatic vegetation surveys were conducted on Lac Lavon (by a gualified subcontractor); one in June and one in August 2022. Work included field work, lab work, QA/QC of lab data (including coordination with lab), entering data into EQuIS database, and submitting data to the MPCA (per guidance in the Black Dog WMO Plan). A report summarizing the water quality monitoring results will be completed in 2023 and posted on the Black Dog WMO website.
- Prepared the 2021 Crystal Lake technical memo summarizing the more detailed (management level) monitoring results and presented the technical memo at the April 20, 2022 Commission meeting.
- Performed habitat monitoring of Orchard Lake. Monitoring included a meandering survey around the entire lake as well as the previously established sample plots (in the emergent and upland

buffer zones). The City of Lakeville provided results of their 2022 aquatic vegetation surveys, which were used to evaluate the submergent zone. 2022 was the last year of habitat monitoring based on the 2012 Watershed Management Plan. Elements of habitat monitoring will be incorporated into management level water quality monitoring beginning in 2023.

- Prepared the 2021 Kingsley Lake habitat monitoring report and presented the report at the April 20, 2022 Commission meeting.
- Conducted an annual evaluation of the watershed programs and reported the results to member communities via a watershed annual report (this report is incorporated into the annual activity report submitted to the Minnesota Board of Water and Soil Resources).
- Developed an annual activity report and watershed annual report and distributed them via the Black Dog WMO website and through the member communities (see attached Watershed Annual Report). The annual activity report meets all the State reporting requirements and is submitted to the Minnesota Board of Water and Soil Resources (BWSR).
- Partnered with the Dakota County SWCD by providing funding and support to install 9 water quality improvement projects through the Landscaping for Clean Water program for Black Dog WMO residents, consistent with SWCD cost share policies.
- Partnered with the Dakota County SWCD to fund Landscaping for Clean Water workshops. The workshops include three programs—Introduction to Clean Water Class, Design Course, and Maintenance Workshop. All programming in 2022 was held virtually. Three live virtual Introduction to Clean Water Class offerings were held in the spring (March through May) and then pre-recorded so others could participate in the classes at their leisure. A total of 58 residents of the Black Dog WMO participated in the Introduction classes through either a live virtual class or through the recordings. A total of 41 participants took part in the virtual Design Course classes which consisted of a series of pre-recorded videos. Project materials for participants were made available online and an "Office Hours" program was used to provide virtual consultations to Design Course class participants. A total of 15 participants took advantage of these virtual consultations with staff in 2022. In 2022, two Maintenance classes were taught in the spring focused on maintenance for all seasons. A total of 21 people registered for the Maintenance classes.
- Completed the 2021 Annual Finance Statement—statute changes allow the Black Dog WMO to perform audits every five years, rather than every year. The last audit was prepared in 2020 for year 2019. The next audit needs to be prepared in 2025 for year 2024.
- Coordinated with member cities, Dakota County and Dakota County SWCD to select projects/activities to fund using BWSR watershed-based implementation funding program grant dollars.
- Formulated and approved the year 2023 Work Plan and Budget.

- Reviewed and responded to any issues and opportunities brought to the attention of the Black Dog WMO.
- Maintained and updated the Black Dog WMO website.
- Continued implementing plan to accrue funds in 1) a Capital Improvement Fund, to be used for future Black Dog WMO internal load reduction projects stemming from TMDLs for lakes with intercommunity shoreline (Crystal Lake, Keller Lake, and Lac Lavon) and 2) a General Fund Reserve to be used for the Black Dog WMO Watershed Management Plan ten-year update.

\*\*Table 1 shows the Status of Implementation Tasks from the Black Dog WMO 2012 Watershed Management Plan\*\*

| 2022 Black Dog WMO Expenditures  |          |          |  |  |  |  |  |
|--|----------|----------|--|--|--|--|--|
|  | BUDGET   | ACTUAL   |  |  |  |  |  |
| General Engineering Support<br>Consulting services for engineering support, such as to prepare for<br>and attend meetings; review/respond to issues and opportunities;<br>assist with BWSR watershed-based implementation funding grant<br>process; apply for grants; review/comment on proposed projects,<br>EAWs, revisions to local water management plans, comprehensive<br>plans, and other plans; communications/meetings with agencies and<br>member cities; track and report on impaired waters and TMDL<br>issues, and other tasks.       | \$31,000 | \$22,608 |  |  |  |  |  |
| <u>Special Projects – General Fund:</u>  |          |          |  |  |  |  |  |
| Lac Lavon Lake Management Level Monitoring<br>Funding to conduct "management level" monitoring of the lake's<br>water quality, per guidance in the Black Dog WMO Plan.   | \$22,500 | \$16,423 |  |  |  |  |  |
| Dakota County SWCD—Landscaping for Clean Water<br>Program Support<br>Funds to partner with the Dakota County SWCD Landscaping for<br>Clean Water program for Black Dog WMO residents.  | \$13,500 | \$6,750  |  |  |  |  |  |
| Reporting on 2021 Crystal Lake Management Level<br>Monitoring<br>Prepare the 2021 Crystal Lake technical memo summarizing the<br>monitoring results and a presentation for a Commission meeting.   | \$4,600  | \$4,558  |  |  |  |  |  |
| <u> Special Projects – Capital Improvement Fund:</u>   |          |          |  |  |  |  |  |
| Keller Lake Alum Treatment<br>Complete Keller Lake alum treatment project (the second phase<br>of alum treatment was performed in fall 2021, while the first alum<br>phase of alum treatment was in spring 2019). The Black Dog<br>WMO received a \$230,000 BWSR Clean Water Fund Grant<br>(awarded in December 2018, final contract execution in April<br>2019), which covers 80% of the project cost (grant requires a 20%<br>local share). All project work was completed prior to 2022,<br>including grant administration and final reporting. | \$5,000  | \$0      |  |  |  |  |  |
| <u> Special Projects – General Fund Reserve:</u>   |          |          |  |  |  |  |  |
| Watershed Management Plan Update<br>Continue work on updating the Black Dog WMO Watershed<br>Management Plan, which expires in September 2022. The<br>planning process usually takes approximately two years to<br>complete; preliminary work began later in 2020. Work completed  | \$40,000 | \$43,005 |  |  |  |  |  |

| or planned in 2021 includes stakeholder engagement, issue<br>identification and prioritization, and drafting of the plan<br>document. Work in 2022 will include completing the draft plan<br>document, navigating the formal plan review process, and<br>obtaining approval from the Minnesota Board of Water and Soil<br>Resources. |          |          |
|--|----------|----------|
| Insurance:   | \$3,000  | \$1,966  |
| Legal and Audit:<br>Consulting fees for legal services.  | \$5,500  | \$2,067  |
| <b>Administrative Services:</b><br>City of Burnsville charges for providing administrative services to the<br>Commission, including staff time, printing and postage. This also<br>includes City accounting staff time to prepare the annual finance<br>statement in years when an audit not required.                               | \$19,000 | \$24,033 |
| <b>Public Education:</b><br>Cost to produce and distribute the annual activity report and<br>watershed annual report, funding support for the Dakota County<br>SWCD Landscaping for Clean Water workshop support, and costs to<br>maintain and redesign the Black Dog WMO website.   | \$20,050 | \$20,404 |
| Water Quality Monitoring:<br>Cost associated with water quality monitoring programs, including<br>the habitat monitoring program, Metropolitan Council's CAMP, and<br>analysis of water quality data.  | \$17,100 | \$16,322 |
| Conference / Publications:<br>Commissioner training and education materials.   | \$500    | \$0      |
| Contingency:<br>Funding for unexpected expenses and/or new program<br>opportunities approved by the Commission   | \$5,000  | \$0      |
|  |          |          |

|                                       | Expenditure Total: | \$186,750     | \$158,135 |  |  |  |  |  |
|---------------------------------------|--------------------|---------------|-----------|--|--|--|--|--|
| 2022 Black Dog WMO Revenues           |                    |               |           |  |  |  |  |  |
|                                       |                    | <b>BUDGET</b> | ACTUAL    |  |  |  |  |  |
| <u>Interest</u>                       |                    | \$40          | \$6,755   |  |  |  |  |  |
| Member City Contributions (Fees)      |                    | \$131,000     | \$131,000 |  |  |  |  |  |
| Member City Contributions—Capital Imp | provement Fund     | \$22,000      | \$22,000  |  |  |  |  |  |
| <u>Grants</u>                         |                    | \$0           | \$0       |  |  |  |  |  |
| Fund Balance Utilized                 |                    | \$33,710      | (\$1,619) |  |  |  |  |  |
|                                       | Revenue Total:     | \$153,040     | \$159,755 |  |  |  |  |  |

| 2022 Black Dog WMO Planned Changes in Fund Balance   |            |            |  |  |  |  |  |
|--|------------|------------|--|--|--|--|--|
|  | BUDGET     | ACTUAL     |  |  |  |  |  |
| <b>Capital Improvement Fund:</b><br>This fund serves as a savings account for future internal load reduction projects stemming from TMDLs. | \$17,000   | \$22,000   |  |  |  |  |  |
| General Fund Reserve:<br>This fund serves as a savings account for the Black Dog WMO<br>watershed plan ten-year update.                    | (\$50,710) | \$(20,381) |  |  |  |  |  |
| Planned Changes in Fund Balance Total:   | (\$33,710) | \$(1,619)  |  |  |  |  |  |

## 2023 Black Dog WMO Work Plan

- 1. Participate in Metropolitan Council's Citizen Assisted Water Quality Monitoring Program (CAMP) for the following strategic water bodies:
  - Crystal Lake
    - Lac Lavon
- Keller Lake Orchard Lake

Complete water quality trend analyses on these lakes using the information gathered through CAMP and the more detailed monitoring on Keller Lake.

**Kingsley Lake** 

- 2. Perform more detailed (management level) 2023 monitoring on Keller Lake as recommended in the updated 2022 Black Dog WMO Watershed Management Plan. The 2023 monitoring includes water quality monitoring and aquatic vegetation surveys of Keller Lake. The water quality monitoring will consist of collecting samples on 11 occasions—ice-out (April) and then May through September, twice per month. On each monitoring occasion, a composite surface sample of 0-2 meters will be collected for laboratory analyses. Because Keller Lake is not much deeper than 2 meters, no additional samples will be collected at depth. The samples will be analyzed for total phosphorus, chlorophyll-a, and chloride. Surface samples will be collected for phytoplankton counts every other sampling event, or once per month April-September, for a total of 6 phytoplankton count samples. In addition, Secchi disc readings will be taken. Field measurements of temperature, dissolved oxygen, pH, redox potential, and specific conductivity will be taken at one meter intervals at the monitoring location. Turbidity field measurements will also be taken on the surface water sample at the monitoring location. Burnsville and Apple Valley will coordinate to conduct two aquatic vegetation point intercept surveys on Keller Lake—one in June and one in August. In 2023, the work includes field work, lab work, QA/QC of lab data (including coordination with lab), entering data into EQUIS database, and submitting data to the MPCA (per guidance in the Black Dog WMO Plan). In 2024, work will include preparing the summary report of the monitoring results in a new format/template (not yet developed), and preparing a presentation for a Commission meeting.
- 3. Prepare the 2022 Lac Lavon technical memo summarizing the more detailed (management level) monitoring results and a presentation for a Commission meeting.
- 4. Prepare the 2022 Orchard Lake habitat monitoring report and a presentation for a Commission meeting.
- 5. As budget allows, develop a new template for the water monitoring reports (first report in 2024).
- 6. Conduct an annual evaluation of the watershed programs and report the results to member communities via a watershed annual report (this report is incorporated into the annual activity report submitted to the Minnesota Board of Water and Soil Resources).

- Hold at least one meeting with the member cities and Dakota County SWCD to align the Black Dog WMO implementation schedule with member city capital improvement programs, as needed, and establish a work plan for the coming year.
- Partner with the Dakota County SWCD by providing funding and technical support to install up to 18 water quality improvement projects through the Landscaping for Clean Water program for Black Dog WMO residents, consistent with SWCD cost share policies.
- 9. Partner with the Dakota County SWCD to fund Landscaping for Clean Water workshops. The workshops include three programs—Introduction to Clean Water Class, Design Course, and Maintenance Workshop. All programs are expected to continue online in 2023 due to the ongoing Covid-19 pandemic. The virtual Introduction to Clean Water Class offerings will be held in the spring (March through May) and then pre-recorded so others can participate in the classes at their leisure. The virtual Design Course classes will consist of a series of pre-recorded videos. Project materials for participants will be available online and an "Office Hours" program will be used to provide virtual consultations to Design Course class participants. The Maintenance Workshop classes are split into three online sessions. Each workshop focuses on maintenance for a given season (Spring, Summer and Fall) allowing for season specific information on how to maintain and promote the health, performance, and beauty of their garden.
- 10. Complete the 2022 annual finance statement—statute changes allow the Black Dog WMO to perform audits every five years, rather than every year. As the last audit was prepared for year 2019, the next audit needs to be prepared in 2025 for year 2024. In the other years, an annual finance statement is prepared.
- 11. As budget allows, prepare up to two educational pieces/presentations for the Commission regarding new technology (e.g., new stormwater best management practices, new lake treatment technologies, etc.) and/or aquatic invasive species.
- 12. Apply for grants and/or assist member cities with grant applications.
- 13. Assist with BWSR watershed-based funding.
- 14. Formulate and approve the year 2024 Work Plan and Budget.
- 15. Review and respond to any issues and opportunities brought to the attention of the Black Dog WMO.
- 16. Maintain and update web site.
- 17. Respond to requests to partner with member communities and Dakota County on educational outreach programs.

- 18. Keep abreast of changes to the TMDL program, including additions to/removals from the impaired waters list and the listing criteria.
- 19. Review revisions to local water management and comprehensive plans as needed. No reviews are expected in 2023, as all member cities' plans have been reviewed and approved.
- 20. Continue implementing plan to accrue funds in a Capital Improvement Fund for the Black Dog WMO Watershed Management Plan ten-year update and future projects including Black Dog WMO internal load reduction projects stemming from TMDLs for lakes with intercommunity shoreline (Crystal Lake, Keller Lake, and Lac Lavon).

-See Attached Watershed Annual Report for information on the 2023 Budget-

### Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022

| Implementation Task   | Original<br>Implementation<br>Date from Plan | Status/Accomplishments  | Next Steps  |  |
|---|--|---|---|--|
| Administrative and Operational—Watershed-wide   |  |   |   |  |
| <ul> <li>General WMO administration, including reviewing and responding to issues and opportunities (not otherwise described in this table) as they arise. This may include services provided by: <ul> <li>Administrator (City of Burnsville)</li> <li>Black Dog WMO consulting engineer</li> <li>Black Dog WMO Attorney</li> </ul> </li> </ul>   | Ongoing                                      | Black Dog WMO continues to perform these<br>actions as needed/requested. In 2022, this<br>included coordinating with BWSR and<br>partners regarding allocation of watershed-<br>based implementation funding. | Continue to perform as needed/requested.  |  |
| Revise joint powers agreement (JPA) to allow cost allocation<br>apportionment specified in Section 4.7.4 – Policy 8 of the 2012<br>Black Dog WMO Plan (funding of internal load reduction projects)   | 2013   | Revision of the JPA not required to develop<br>and implement plan to accrue funds in a<br>Capital Improvement Fund.   | None.   |  |
| Review Burnsville local watershed management plan   | 2014   | Black Dog WMO approval of plan in 2017.   | Review local plans concurrent with<br>next Comprehensive Plan update<br>cycle. Local water plans are currently<br>in compliance with the new 2022 |  |
| Review Lakeville local watershed management plan  | 2014   | Black Dog WMO approval of plan in 2019.   |   |  |
| Review Apple Valley local watershed management plan   | 2014   | Black Dog WMO approval of plan in 2018.   |   |  |
| Review Eagan local watershed management plans   | 2014   | Black Dog WMO approval of plan in 2018.   | Watershed Management Plan.  |  |
| <ul> <li>Miscellaneous reviews including, but not limited to:</li> <li>Review city comprehensive plan changes that require review by the Metropolitan Council</li> <li>Review projects for consistency with the Black Dog WMO plan, as requested by member cities or other governmental agencies</li> <li>Review and approve any proposed changes to the intercommunity stormwater system that are inconsistent with an approved local plan</li> <li>Review and approve changes to an approved local plan that would cause the local plan to be inconsistent with the Black Dog WMO plan</li> </ul> | Ongoing                                      | Black Dog WMO continues to perform these<br>reviews as needed/requested.  | Continue to perform as<br>needed/requested.   |  |

# Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022

| Implementation Task  | Original<br>Implementation<br>Date from Plan | Status/Accomplishments  | Next Steps   |
|--|--|---|--|
| City technical staff (technical advisor) attendance at Black Dog WMO meetings                      |  |   | City staff continue to attend Black Dog WMO meetings.  |
| Facilitate intercommunity flood control, stormwater runoff, erosion, and sediment control projects | As needed                                    | No facilitation of intercommunity projects currently planned  | Provide facilitation, if needed.   |
| Apply for and/or assist member cities with grant applications                                      | Ongoing                                      | The Black Dog WMO continues to pursue<br>these opportunities as they arise. In<br>December 2018, BWSR awarded the Black<br>Dog WMO a \$230,000 Clean Water Fund<br>Grant (grant agreement executed in early<br>2019) for the Keller Lake Alum Treatment<br>project.   | Continue to apply for grants or<br>assist member cities in their grant<br>applications, as<br>appropriate/requested, including<br>participation in allocation of<br>watershed-based implementation<br>funding. |
| Complete and submit annual audit to BWSR   | Ongoing                                      | Submitted annually; per revised statute, the<br>Black Dog WMO is required to perform an<br>audit every 5 years, rather than annually. In<br>the other years, the Black Dog WMO will<br>prepare an annual finance statement. In<br>2020, the Black Dog WMO prepared an<br>audit for year 2019; the next audit will need<br>to be prepared in 2025 for year 2024. | Prepare next audit in 2025; prepare<br>annual finance statements in<br>intervening years.  |

## Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022

| Implementation Task  | Original<br>Implementation<br>Date from Plan | Status/Accomplishments   | Next Steps   |
|--|--|--|--|
| Update Black Dog WMO Watershed Management Plan   | 2020   | In late 2020, the Black Dog WMO began<br>preliminary work on updating the<br>Watershed Management Plan. The Black<br>Dog WMO distributed the draft Plan for<br>formal 60-day review on May 12, 2022,<br>responded to comments, and hosted a<br>public hearing on the draft Plan on August<br>17, 2022. The BWSR Board approved the<br>draft Plan in October, 2022 and the Black<br>Dog WMO Commissioners adopted the Plan<br>on November 16, 2022. | Begin new Plan update starting in<br>2030.   |
| Development of TMDL Studies and Implementation Plans   | Ongoing                                      | Black Dog WMO will perform these tasks as<br>necessary; there are no TMDL studies or<br>implementation plans currently planned by<br>the Black Dog WMO   | Black Dog WMO will perform these<br>tasks as necessary; do not anticipate<br>studies in the near future. |
| Complete and publish watershed annual report (newsletter) and post on website  | Ongoing                                      | Published annually.  | Complete annually.   |
| Complete and submit annual activity report to BWSR and post on website   | Ongoing                                      | Completed, published, and submitted annually   | Complete annually.   |
| Create, maintain and update web site—put plan, data, meeting<br>agenda and minutes, watershed annual reports, water quality<br>monitoring reports, educational materials, project updates, etc. on<br>the site | Ongoing                                      | Website is hosted by Dakota SWCD and<br>regularly updated as new material is<br>available. Dakota SWCD updated/<br>redesigned the website in 2021.   | Continue to maintain and update website.   |

| Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022 |
|---|
|---|

| Implementation Task  | Original<br>Implementation<br>Date from Plan | Status/Accomplishments  | Next Steps  |
|--|--|---|---|
| Educational outreach including, but not limited to: exploring social media and email list serves to expand communication with the public, sponsoring workshops in partnership with the Blue Thumb program, the promotion of awareness of groundwater resource issues, and seeking volunteers to participate in water quality and water quantity programs | Ongoing                                      | <ul> <li>Provided watershed annual report to member cities and posted to Black Dog</li> <li>WMO website; maintained website (see above); since 2009, Black Dog WMO has partnered with the Dakota SWCD to fund Landscaping for Clean Water (formerly Blue Thumb) Program workshops in the Black Dog WMO area. In 2022, Black Dog WMO provided funding for workshops in three program areas (all programs continued online in 2022 due to the ongoing Covid-19 pandemic):</li> <li>1. Introduction to Clean Water Class - four live virtual classes were held in the spring and were pre-recorded so others could participate.</li> <li>2. Design Course – the virtual classes were a series of pre-recorded videos. Project materials for participants were available online and an "Office Hours" program provided virtual consultations to class participants.</li> <li>3. Maintenance Workshop – in 2022, two maintenance courses were provided covering maintenance in all seasons.</li> </ul> | Continue providing watershed<br>annual report to member cities and<br>partnering with Dakota SWCD to<br>fund workshops. |

| Implementation Task   | Original<br>Implementation<br>Date from Plan | Status/Accomplishments  |  | Next Steps   |
|---|--|---|--|--|
| Implementation of small-scale best management practices on<br>private property to improve water quality | Ongoing                                      | with the Dakota<br>funding and sup<br>improvement pr<br>Landscaping for<br>(formerly Blue T<br>Conservation Cc<br>Dog WMO resid<br>rainwater garder | k Dog WMO has partnered<br>County SWCD by providing<br>port to install water quality<br>ojects through the<br>Clean Water Program<br>humb and Community<br>ost Share Programs) for Black<br>lents. Projects have included<br>ns, native gardens, shoreline<br>and a bioretention site.<br>Number of projects<br>9<br>7<br>6<br>18<br>13<br>16<br>18<br>13<br>16<br>18<br>19<br>9<br>9<br>9<br>9<br>9<br>9<br>9 | Continue partnering with Dakota<br>SWCD to fund water quality<br>improvement projects. |

## Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022

| Implementation Task   | Original<br>Implementation<br>Date from Plan | Status/Accomplishments   | Next Steps   |  |
|---|--|--|--|--|
| Implement recommended internal phosphorus load reduction<br>projects identified in UAA and/or TMDL for non-strategic<br>waterbodies or strategic waterbodies without inter-community<br>shoreline   | As needed                                    | Black Dog WMO will implement these<br>projects when watershed load reduction<br>projects have been implemented and further<br>water quality improvements are needed. See<br>below for Black Dog WMO's Keller Lake<br>implementation project. | Implement when needed (see Keller<br>Lake actions below).  |  |
| <ul> <li>Annual CAMP water quality monitoring, performing trend analysis, and establishing action levels for the following strategic waterbodies:</li> <li>Crystal Lake</li> <li>Keller Lake</li> <li>Kingsley Lake</li> <li>Lac Lavon</li> <li>Orchard Lake</li> </ul>   | Ongoing                                      | CAMP monitoring completed annually; trend<br>analysis completed annually.<br>CAMP monitoring completed annually.<br>Continue annual CAMP monitor<br>and trend analyses of monitor<br>data.   |  |  |
| Management level water quality monitoring performed at 3-year intervals for the following strategic waterbodies:<br>• Crystal Lake • Lac Lavon • Orchard Lake   | Ongoing                                      | Performed for one lake annually; most<br>recent monitoring includes Orchard Lake in<br>2020, and Crystal Lake in 2021, and Lac<br>Lavon in 2022.   | Transition to 5-year monitoring<br>cycle as described in the 2022<br>Watershed Management Plan.  |  |
| <ul> <li>Habitat monitoring at 5-year intervals for the following strategic waterbodies:</li> <li>Crystal Lake</li> <li>Keller Lake</li> <li>Kingsley Lake</li> <li>Lac Lavon</li> <li>Orchard Lake</li> </ul>  | Ongoing                                      | Implementation of the redesigned programbegan in 2011; habitat monitoring has beenperformed as shown below:Kingsley Lake2011, 2016, 2021Orchard Lake2012, 2017, 2022Crystal Lake2013, 2018Lac Lavon2014, 2019Keller Lake2015, 2020           | 2022 was the last year of the habitat<br>monitoring program. Elements of<br>the habitat monitoring program will<br>be incorporated into the<br>management level water quality<br>monitoring consistent with the 2022<br>Watershed Management Plan. |  |
| <ul> <li>Implement lake water quality management actions recommended<br/>in Table 4-1 of the 2012 Black Dog WMO Plan, depending on water<br/>quality trends and comparison of recent water quality to action<br/>level, for the following strategic waterbodies:</li> <li>Kingsley Lake</li> <li>Lac Lavon</li> <li>Orchard Lake</li> </ul> | As needed                                    | Black Dog WMO will implement these<br>actions as necessary; there are no actions<br>currently planned.   | Continue tracking water quality trends and action levels and take actions as/when necessary.   |  |

# Table 1: Status of Implementation Tasks from 2012 Black Dog WMO Watershed Management Plan—through December 31, 2022

| Implementation Task   | Original<br>Implementation<br>Date from Plan | Status/Accomplishments  | Next Steps   |
|---|--|---|--|
| Capital Projects—Crystal Lake   |  |   |  |
| <ul> <li>Implement recommended watershed projects to reduce runoff-<br/>borne phosphorus loads, as identified in the TMDL, that may<br/>include: <ul> <li>Street sweeping</li> <li>Native shoreline buffers</li> <li>Public outreach and education</li> </ul> </li> </ul> | Ongoing                                      | Projects to be performed by member cities<br>(Lakeville, Burnsville) with possible grant<br>funding from Black Dog MWO. Burnsville<br>performs street sweeping in the watershed<br>twice a year and performs ongoing outreach<br>and education. Beyond website articles and<br>city newsletter information, city staff meet<br>with the Crystal Lake association twice a<br>year. Black Dog WMO also performs<br>ongoing public education.                              | Cities perform projects as needed;<br>continue to perform public<br>education. |
| <ul> <li>Implement recommended internal phosphorus load reduction projects identified in the TMDL, that may include:</li> <li>In-lake alum treatment</li> <li>Aquatic macrophyte management</li> <li>Internal load reduction in upstream Keller Lake</li> </ul>           | As needed                                    | The Black Dog WMO began the Keller Lake<br>Alum Treatment project in 2018 and<br>received a BWSR Clean Water Fund grant for<br>the project in 2019. The alum treatment was<br>divided into two phases to increase the<br>long-term effectiveness. Phase 1 occurred in<br>June 2019 and Phase 2 occurred in<br>September 2021. Other potential future<br>projects are listed in Table 5-3 of the 2012<br>Black Dog WMO Plan; no other projects are<br>currently planned. | Implement other projects when recommended.                                     |

| <ul> <li>Implement water quality improvement measures in Orchard Lake,<br/>Kingsley Lake, and Lac Lavon as identified in future diagnostic<br/>feasibility studies, that may include: <ul> <li>Watershed projects (e.g., stormwater treatment ponds,<br/>rainwater gardens, infiltration basins)</li> <li>Internal load reduction projects (e.g., in-lake alum<br/>treatment, aquatic macrophyte management)</li> </ul> </li> </ul> | As needed                                    | Black Dog WMO will implement projects as<br>necessary; no projects are currently planned.   | Implement projects as necessary; no projects planned. |

2022 Watershed Annual Report

[Page intentionally left blank]

# BLACK DOG Watershed Management Organization

# 2022 WATERSHED ANNUAL REPORT

Published April 2023

# **Our Vision:**

To manage water resources and related ecosystems to sustain their long-term health and public value to contribute to the well-being of the communities within the watershed.

# **Evaluating our Success**

The BDWMO watershed management plan calls for the organization and its member cities to identify outcome-based goals for specific water bodies found within the watershed, and to meet annually to discuss progress toward these goals. The BDWMO uses the following tools to track progress toward goals:

- **Trend Analysis**—The BDWMO collects water quality information to track water quality trends.
- **Performance Analysis**—The BDWMO will evaluate the member cities' implementation of maintenance plans, capital improvement projects, programs, and other items.
- Habitat Quality Analysis—The BDWMO collects habitat quality data to detect conditions that would trigger a need for management actions.

This annual report outlines the BDWMO's goals, progress toward those goals in 2022, and plans for 2023 and beyond.

# What is the Black Dog Watershed Management Organization?

The Black Dog Watershed Management Organization (BDWMO) actively manages surface water, such as that found in lakes, streams, and wetlands, located in the Black Dog and Credit River watersheds within Dakota County. To effectively manage surface water, the BDWMO develops and implements plans that address water quality, responds to drainage issues that cross multiple municipal boundaries, and assists cities within the watershed to manage surface water runoff. The BDWMO is represented by commissioners who are appointed by the cities within the watershed, which include Burnsville, Lakeville, Apple Valley, and Eagan.

The total area of the Black Dog watershed is 17,500 acres; 70 percent of the watershed lies within the city of Burnsville, 21 percent of the area is within the city of Lakeville, 8 percent is within the city of Apple Valley, and 1 percent is within the city of Eagan.

## **BDWMO Approves and Adopts Updated Watershed Management Plan**

At the end of 2022, the BDWMO completed the lengthy process of updating its Watershed Management Plan—a plan that establishes the vision, policies, and activities for protecting, restoring, and managing the surface water resources within the boundaries of the BDWMO for the next decade (2022–2032).

The plan provides resource data and background information, identifies and prioritizes watershed-wide and resourcespecific issues, establishes measurable goals, sets policies and performance standards for the BDWMO and its cities, and lays out a 10-year implementation schedule including projects and programs.

#### Land and Water Resources Inventory

The plan includes a land and water resources inventory, covering climate and precipitation; topography and drainage; population, demographics, and land use; soils; geology; groundwater; surface water resources (lakes, ponds, and wetlands); water monitoring and studies; water quality and BDWMO management classifications; water quantity and flooding; natural communities and rare species; fish and wildlife habitat; open space and recreational areas; and pollutant sources.

#### **Priority Issues and Resources**

Understanding the condition of water and natural resources present in the BDWMO is key to identifying priority issues, establishing goals, and targeting the actions of the BDWMO, its member cities, and other partners. As part of the plan development, the BDWMO commissioners solicited input on priority issues and concerns from residents, state agencies, member cities, and regional partners through multiple stakeholder engagement activities, including:

- Plan notification letter
- City and Partner staff interviews
- Online survey
- Technical Advisory Committee (TAC) workshop
- Public kickoff meeting (virtual)

| Higher Priority Issues   | Lower Priority Issues   |
|--|---|
| <ul> <li>Water quality, including:         <ul> <li>Stormwater runoff quality</li> <li>In-lake water quality</li> <li>Impairments (Keller Lake)</li> </ul> </li> <li>Lake ecology and habitat, including:         <ul> <li>Habitat quality</li> <li>Invasive species management</li> </ul> </li> <li>Groundwater management, including:</li> </ul> | <ul> <li>Flooding and water levels</li> <li>Wetland management</li> <li>Upland and natural area management</li> </ul> |
| <ul> <li>Pollution prevention</li> <li>Conservation and sustainability</li> <li>Education and Engagement</li> </ul>  |   |

The BDWMO also classified Crystal Lake, Keller Lake, Kingsley Lake, Lac Lavon, and Orchard Lake as strategic waterbodies to be the focus of BDWMO activities.

#### **Goals and Policies**

The plan presents the goals and policies established by the BDWMO to address the priority resources or operational issues. Where possible, BDWMO goals contain measurable targets to evaluate progress.

Key goals include:

- Maintain or improve water quality in BDWMO strategic waterbodies to meet applicable state standards or existing 10-year (2012–2021) summer average water quality, if better than state standards.
- Work with member cities to reduce chloride loading relative to current conditions through practices consistent with the Twin Cities Metropolitan Area Chloride Management Plan and Minnesota Statewide Chloride Management Plan.
- Maintain or improve the ecological and habitat quality of BDWMO strategic waterbodies to achieve applicable standards for floristic quality index (FQI ≥ 17.8) and native species diversity of submerged vegetation (at least 11 species).
- Support member city and partner actions to prevent the increase or reduce the occurrence of aquatic invasive species within BDWMO strategic waterbodies.
- Increase awareness and knowledge of residents, local officials, and city staff regarding water resources and stormwater management through actions coordinated with member cities, Dakota SWCD, and other partners.
- Increase community capacity to implement water and natural resource stewardship action through increased participation in volunteer activities; increased participation in small-scale BMP cost share projects; and providing data through accessible media.

#### Implementation Program

The plan also presents a 10-year implementation program, including a continuation of ongoing activities as well as new activities to address emerging issues and changing priorities. Notable new or expanded activities include:

- Expanded water chemistry monitoring of Keller Lake and Kingsley Lake
- Algal community monitoring of strategic waterbodies
- Chloride monitoring of strategic waterbodies
- Development of K-12 education outreach
- Targeted outreach to address chloride loading
- Opportunities to use watershed-based implementation funding (WBIF) to support member city projects for stormwater treatment, shoreline improvement, and aquatic plant management for strategic waterbodies.

## Landscaping for Clean Water—Clean Water Starts at Home

Since most land is privately owned, it is up to each individual landowner to do the right thing on their property to help keep water clean. The Landscaping for Clean Water program makes it easy for residents to turn their yards into a lush and lovely force for clean water rather than a contributor to water pollution.

Are you doing everything possible on your patch of lawn? Attend a Landscaping for Clean Water workshop to find out. Participants in the program attend design workshops to develop landscape plans for their own yards. These plans include creating native gardens, raingardens, or native shorelines that stabilize soil. These planting practices provide habitat for pollinators and birds, reduce watering and require no chemical inputs. On top of that, these practices help water soak into the ground rather than running off and delivering polluted stormwater into lakes, rivers and wetlands.

#### Who can get a grant?

Participants in the workshops can submit an application, project plan, and cost estimates to the Dakota County SWCD for grant funds of up to \$250.

#### 2022 Classes and Participants

In 2022, all Landscaping for Clean Water programming was held virtually. Three live virtual Introduction classes were held in the spring (March through May) and then recorded so others could participate in the classes at their leisure. A total of 58 residents of the BDWMO participated in the Introduction classes through either a live virtual class or through the recordings.

A total of 41 participants took part in the virtual Design classes which consisted of a series of pre-recorded videos. Project materials for participants were made available online and an "Office Hours" program was used to provide virtual consultations to Design class participants. A total of 15 participants took advantage of these virtual consultations with staff in 2022. Participants were thankful for the additional one-on-one design assistance. Nine projects were installed in the BDWMO in 2022—five raingardens and four native gardens (see two below).

In 2022, two Maintenance classes were taught in the spring. Each workshop focused on garden maintenance across all seasons. Providing participants with seasonal information on how to maintain and promote the health, performance, and beauty of their garden. A total of 21 people registered for the Maintenance classes.

The 2023 Landscaping for Clean Water program will be held both in-person and virtually for the first time since 2019! For more information and to get signed up, visit https:// dakotaswcd.org/services/landscaping-for-clean-water/.

Before and after: Installation of a 250 sq. ft. residential native garden

Before and after: Installation of a 250 sq. ft. residential raingarden

Landscaping for Clean Water is one type of cost-sharing program offered by the Dakota County SWCD. For more information, call 651-480-7777 or go to https://dakotaswcd.org/services/landscaping-for-clean-water/.

## "School" of Goldfish

There are two new teachers in the Black Dog WMO, and they are here to remind you not to release unwanted pets into local water bodies. Two new educational goldfish mounts, "Betty"

and "Bubbles" are available for use by local public entities to help educate the public on harms of exotic invasive species. Goldfish can wreak havoc in lakes and ponds—these two examples were found in Keller Lake. Their feeding behavior disrupts shallow rooted plants, muddying the water, and also

releasing phosphorous bound in the sediment. Less clear water and additional phosphorous can prevent sunlight from reaching plants and can lead to additional algal blooms. Aquatic plants provide important habitat for native fish and help sustain water clarity by holding sediments in place.

The goldfish mounts were funded through an Aquatic Invasive Species grant offered by Dakota County Environmental Services as learning tools for education and outreach opportunities. Other entities or local government units can borrow the fish for educational events. Contact 952-953-2462 for more information on borrowing one of the mounts.

## Lac Lavon Looking Lovely

The BDWMO is pleased to report that Lac Lavon continues to have excellent water quality. The 2022 summer-average Secchi disc transparency in Lac Lavon was 3.5 meters (11.5 feet), and considerably better than the MPCA deep-lake water quality standard of 1.4 meters. The 2022 summer average of total phosphorus (the nutrient that drives algal growth) was 13  $\mu$ g/L, considerably better than the MPCA's deep lake standard (40 µg/L). The summer-average chlorophyll-a (a measure of algal abundance) was 3 µg/L, also considerably better than the MPCA's deep lake standard (14 µg/L).

Aquatic plant surveys were performed in June and August of 2022— the survey found twelve aquatic plant species present in Lac Lavon, nine of which are native to Minnesota. The three non-native aquatic plants identified in 2022 were curly-leaf pondweed, Eurasian watermilfoil, and brittle naiad. Eurasian watermilfoil, and the native plant

coontail, were the two most abundant aquatic plants in June and August. The non-native emergent plant purple loosestrife was also identified on shorelines. Brittle naiad was first identified on Lac Lavon in 2003. As of 2022, the Minnesota Department of Natural Resources reports that

Non-native brittle naiad in Lac Lavon, August 10, 2022

only six lakes in Minnesota are known to have brittle naiad. Brittle naiad does not grow very tall, and does not appear to be growing at nuisance levels in Lac Lavon—it was not even identified in aquatic plant surveys conducted in 2019.

The BDWMO will continue to monitor the water quality of Lac Lavon in 2023.

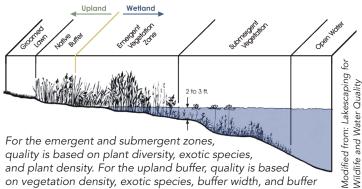

#### Lac Lavon Raingarden Coming in 2023

The City of Apple Valley leveraged \$40,000 in local grant dollars to design and construct a raingarden at the parking lot located on the north end of Lac Lavon. Currently, stormwater runoff flows off the parking lot, down a slope, ultimately reaching Lac Lavon. The raingarden, featuring native plants, will serve as a demonstration project for the improvement of water quality within the watershed.

## Habitat Monitoring Program

Since 2003, the BDWMO has implemented a program for monitoring the wildlife and fish habitat quality of strategic water resources in the watershed, including biological and physical indicators, such as upland and aquatic vegetation, buffer zones, erosion, sedimentation, and the presence of non-native exotic species. The program also recommends management actions based upon monitoring results.

2022 was the final year of the habitat monitoring program.

on vegetation density, exotic species, buffer width, and buffer continuity.

#### In 2022, the BDWMO monitored the habitat quality

of Orchard Lake. Monitoring included transect, plot, and meandering surveys. Photographs were taken to document conditions. Analysis and reporting of the monitoring data includes a floristic quality assessment and a four-tiered rating system (poor, moderate, high, and excellent). Private versus public ownership was identified along the entire shoreline. The survey results, along with parcel data, were used to identify possible locations for restoration and preservation.

Habitat monitoring results showed that Orchard Lake's submergent zone was rated high, but both the emergent and upland buffer zones were rated moderate. Curly-leaf pondweed and Eurasian watermilfoil are treated each year in Orchard Lake.

See page 7 for additional Orchard Lake habitat monitoring results. See www.blackdogwmo.org for the full report.

The member cities have provided lakeshore owners with shoreline restoration information since 2004 and continually promote and encourage lakeshore property owners each year to take advantage of the Dakota County SWCD Landscaping for Clean Water shoreline restoration program. (See page 3 for more about this program.)

### Water Quality Monitoring Program

The BDWMO and member cities continued to monitor several of its lakes during 2022 through the Metropolitan Council's Citizen-Assisted Monitoring Program (CAMP) to detect any water quality changes that would require management action by the WMO. In addition, the BDWMO conducted more detailed monitoring on Lac Lavon (see page 4). The monitoring focused on three water quality indicators—total phosphorus and chlorophyll-a concentrations, plus Secchi disc transparency. All three variables correlate strongly to the open-water nuisance conditions of lakes (i.e., algal blooms).

Long-term monitoring is important because lakes can change from year to year. Only when several years of data are compiled do trends become apparent. Because the MPCA periodically evaluates water quality data from the most recent ten-year period to determine if a lake violates applicable water quality standards, the WMO has adopted the same time convention for conducting its annual trend analyses. Graphs on this page and subsequent pages show historic trends in water quality.

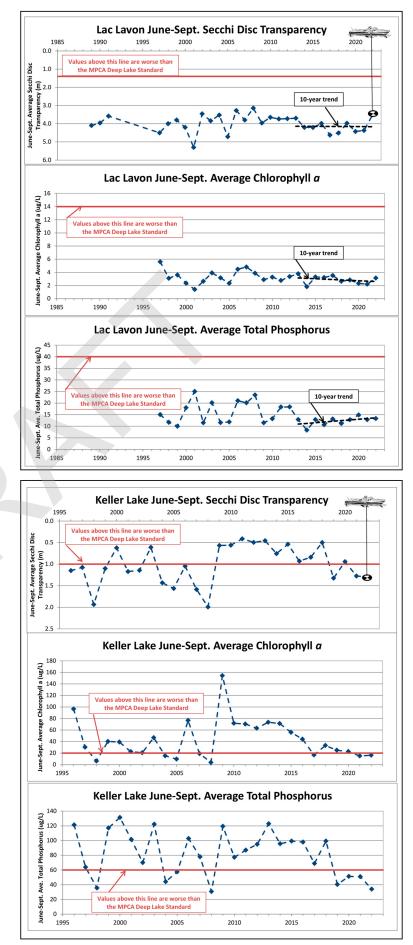

#### Lac Lavon (Apple Valley & Burnsville)

Water Quality Monitoring—In 2022, the BDWMO performed more detailed management level monitoring on the lake (see story on page 4).

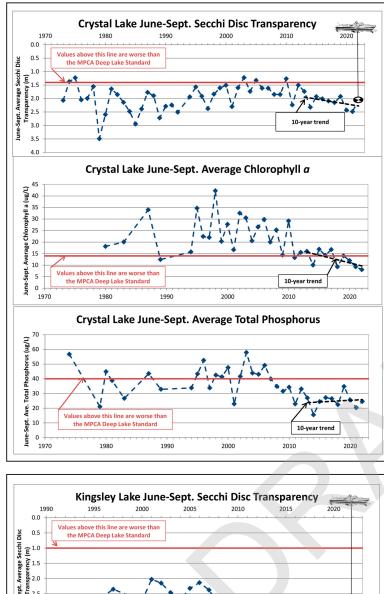

#### Keller Lake (Burnsville & Apple Valley)

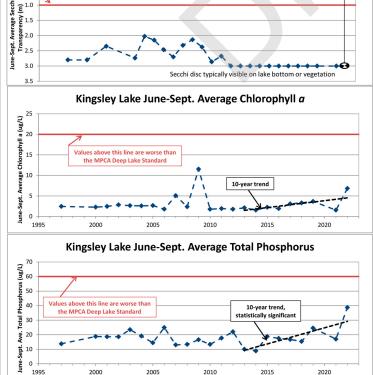

Water Quality Monitoring—An alum and sodium aluminate treatment was conducted on Keller Lake in Spring 2019 and Spring 2021, resulting in improved water quality in recent years. The 2022 Secchi disc transparency summer average was 1.3 meters (4.2 feet), which is better than the MPCA's shallow lake standard of 1.0 meter (3.3 feet). The summer-average total phosphorus (34  $\mu$ g/L) was also better than the MPCA's shallow lake standard of 60  $\mu$ g/L. Summer averages of total phosphorus had been consistently worse than the MPCA standard every year for the period 2009-2018, before the alum and sodium aluminate treatment of the lake. The 2022 summer-average of chlorophyll-*a* (16  $\mu$ g/L) was also better than the MPCA's shallow lake standard of 20  $\mu$ g/L.

Trend analyses were not completed for Keller Lake because of the alum and sodium aluminate treatments that were conducted in 2019 and 2021. The threelake TMDL study and implementation plan identifies the water quality improvement measures needed to achieve the BDWMO and MPCA goals for the lake. The BDWMO will continue to monitor the water quality of Keller Lake in 2023, including regularly-scheduled management level monitoring.

## **2022 Monitoring Results**

#### Crystal Lake (Burnsville & Lakeville)

Water Quality Monitoring—Crystal Lake continued to experience good water quality in 2022. The 2022 summer-average Secchi disc transparency was 2.0 meters (6.6 feet), which is better than the MPCA deep-lake water quality standard of 1.4 meters. The 2022 summer average of total phosphorus (25  $\mu$ g/L) was better than the deep lake standard (40  $\mu$ g/L). The summer average of chlorophyll-*a* (8  $\mu$ g/L) was also better than the deep lake standard (14  $\mu$ g/L), and was the best on record for Crystal Lake. There were no statistically significant trends in summer averages of water quality for the period 2013-2022. The BDWMO will continue to monitor the water quality of Crystal Lake in 2023.

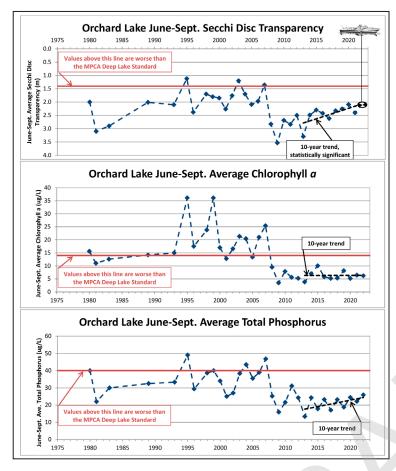

Kingsley Lake

#### Kingsley Lake (Lakeville)

Water Quality Monitoring—Water quality monitoring data from 2022 show continued good water quality in Kingsley Lake. Water is often clear enough that the Secchi disc used to measure transparency can still be seen when resting on the bottom of the lake.\* The 2022 summer average of total phosphorus (39  $\mu$ g/L) was the worst on record, and double the 2021 summer average, but still much better than the shallow lake standard (60 µg/L). However, there is a statistically significant trend of degrading total phosphorus concentration for the 10-year period of 2013–2022. Chlorophyll-a (7 μg/L) concentrations were the worst they have been since 2009, but also still much better than the shallow lake standard (20 µg/L). The 2022 summer averages of total phosphorus and chlorophyll-a were better than the MPCA's shallow lake standards, and have consistently been better than the water quality standards since 1997. Water quality was not monitored in Kingsley Lake in 2020. The BDWMO will continue to monitor the water quality of Kingsley Lake in 2024. \*Secchi disc readings in Kingsley Lake are difficult because lake vegetation obscures the Secchi disc, giving false measurements; therefore, there is no trend line in the graph at left.

## **2022 Monitoring Results**

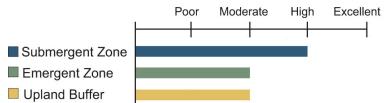

#### **Orchard Lake** (Lakeville)

Water Quality Monitoring—Orchard Lake's water quality in 2022 was similar to other recent years, but has generally experienced declining water clarity over the past 13 years. There is a statistically significant trend of degrading water clarity for the 10-year period of 2013-2022. The 2022 summer average Secchi disc transparency was 2.1 meters (6.9 feet), which is better than the MPCA deep-lake water quality standard of 1.4 meters. The 2022 summer-averages of total phosphorus (26 µg/L) and chlorophyll-a (6 µg/L) were better than the MPCA's deeplake water quality standards as well. There were no statistically significant trends in summer averages of total phosphorus and chlorophyll-a for the most recent 10-year period. Summer averages of water quality in Orchard Lake have been consistently better than the water quality standards for the last fifteen years (2008-2022). The BDWMO will continue to monitor the water quality of Orchard Lake in 2023.

#### **Orchard Lake Habitat Monitoring Results for 2022**

As mentioned in the article on page 4, habitat monitoring was conducted in 2022 on Orchard Lake. The BDWMO made the following quality ratings, based on the monitoring results:

#### Submergent zone quality rating = High

Rating based on averaging four criteria:

- 1. excellent total number of native species (16)
- 2. excellent average native plant density (1.2)
- 3. moderate rating for average exotic species density (1.3)
- 4. moderate coefficient of conservatism value (mean C-value) (5.3)

Curly-leaf pondweed and Eurasian watermilfoil are treated each year in Orchard Lake. Curly-leaf pondweed has been documented within Orchard Lake since 2004. Eurasian watermilfoil was first observed in 2017 and has since increased in distribution. Coontail is the dominant native submergent plant species. Moderate and light densities of native plants were well distributed on Orchard Lake in 2022, including flatstem pondweed, muskgrass, and largeleaf pondweed. Filamentous algae was also present on the lake in 2022.

The BDWMO recommends continued monitoring and control of non-native invasive plant species.

#### Emergent vegetation zone quality rating = Moderate

Rating based on averaging four criteria:

- 1. excellent number of native wetland plant species (64)
- 2. moderate rating for % coverage of exotic species (51-75%)
- 3. a poor mean C-value rating (2.9)
- 4. high rating for total vegetative cover (51-75%)

Non-native species, including narrowleaf and hybrid cattail, and purple loosestrife are found in the vegetated emergent zone. The deep marsh habitat in the northeastern portion of Orchard Lake contains dense cattails and purple loosestrife along with native vegetation, including sedges, rushes, bulrushes, bur-reeds, ferns, iris, and bluejoint, which provide habitat for frogs, turtles, green herons, wood ducks, and great blue herons. One shoreline restoration is well maintained by the residentail landowner, providing aesthetically pleasing shoreline pollinator habitat and erosion protection with dense coverage of native emergent species.

The BDWMO recommends continued control and management of purple loosestrife and encouragement of additional residential shoreline restoration projects to control erosion and improve habitat.

#### Upland buffer zone quality rating = Moderate

- 41 native species and 24 exotic species observed.
- Exotic plant species >40% of upland vegetative cover. The mean C-value rating is 2.2 (poor).
- Upland buffer within residential properties is dominated by maintained lawn grasses with little to no naturalized vegetation. These area could be vegetated with native grasses and wildflowers to control erosion and improve habitat. The BDWMO recommends control of non-native common buckthorn, Chinese silver grass, and Siberian elm.
- Additional recommendations are in areas of bare soil to prevent erosion.
- Lakeshore property owners are encouraged to apply for funds (see page 3) to assist with implementation of the BDWMO recommendations.

# **BLACK DOG** Vatershed Management Organization

www.blackdogwmo.org

#### WANTED: Lakeville Alternate Commissioner

The City of Lakeville is seeking an alternate commissioner to represent the City on the Black Dog Watershed Commission through 2025. Alternates serve as an acting member but vote only during the absence of a regular Commissioner. The Commission meets the third Wednesday of each month. The position is open to Lakeville residents ages 18 and older that live within the Black Dog Watershed. Those interested in this volunteer position should send a letter of interest to the Lakeville City Engineer Zach Johnson. The City will interview interested qualifying candidates.

Email Zach Johnson at: zjohnson@lakevillemn.gov

## **Board of Commissioners**

#### Representing Burnsville:

Curtis Enestvedt, Chair (serving since 2014) Mike Hughes, Vice Chair (serving since 2008) Lynette Dunsworth, Commissioner (serving since 2023) Alternate — Open position

#### **Representing Apple Valley and Eagan:**

Rollie Greeno, Commissioner (serving since 2018) Greg Helms, Alternate (serving since 2011)

#### Representing Lakeville:

Scott Thureen, Secretary/Treasurer (serving since 2008) Alternate — Open position

**Engineering Consultant:** Karen Chandler, P.E., Barr Engineering Co.

Legal Consultant: Jared Shepherd, Campbell Knutson, P.A.

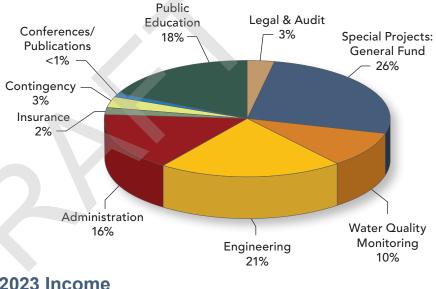

#### For more information, please contact:

#### Daryl Jacobson, Administrator Black Dog WMO

City of Burnsville 13713 Frontier Court | Burnsville, MN 55337 Phone: 952-895-4574 Daryl.Jacobson@burnsvillemn.gov

# Regular board meetings...

are held at 5:00 p.m. on the third Wednesday of the month at the Burnsville Maintenance Facility at 13713 Frontier Court.

2022 Water Quality Data

[Page intentionally left blank]

The Black Dog WMO funds the water quality monitoring of its water bodies designated as "strategic" by the Black Dog WMO. In 2022, the strategic water bodies included:

- 1. Crystal Lake
- 2. Keller Lake
- 3. Kingsley Lake
- 4. Lac Lavon
- 5. Orchard Lake

Water quality data for the strategic water bodies is presented on the following pages. First are a series of figures that summarize the historical summer average (June 1 through September 30) total phosphorus, chlorophyll *a*, and Secchi disc transparency data. The figures include trend lines based on data from the past 10 years and note if the trend is statistically significant. The linear best-fits were determined using a "least squares" regression analysis of the summer average data from 2013-2022 and assessed for significance at a 95% confidence level. Trend analyses were not performed for Keller Lake because of the alum treatment that was conducted in spring 2019 and fall 2021.

Second are a series of tables that show the results of the water quality monitoring for each data collection date in 2022, including CAMP data and data collected by the Black Dog WMO Engineer. The 2022 CAMP data provided by the Metropolitan Council were final data (i.e., Metropolitan Council laboratory had finished their review of the data) at the time this report was prepared.

Water quality monitoring data is also available for other "non-strategic" water bodies in the Black Dog WMO. In 2022, the member cities funded participation in the CAMP program for the following non-strategic water bodies:

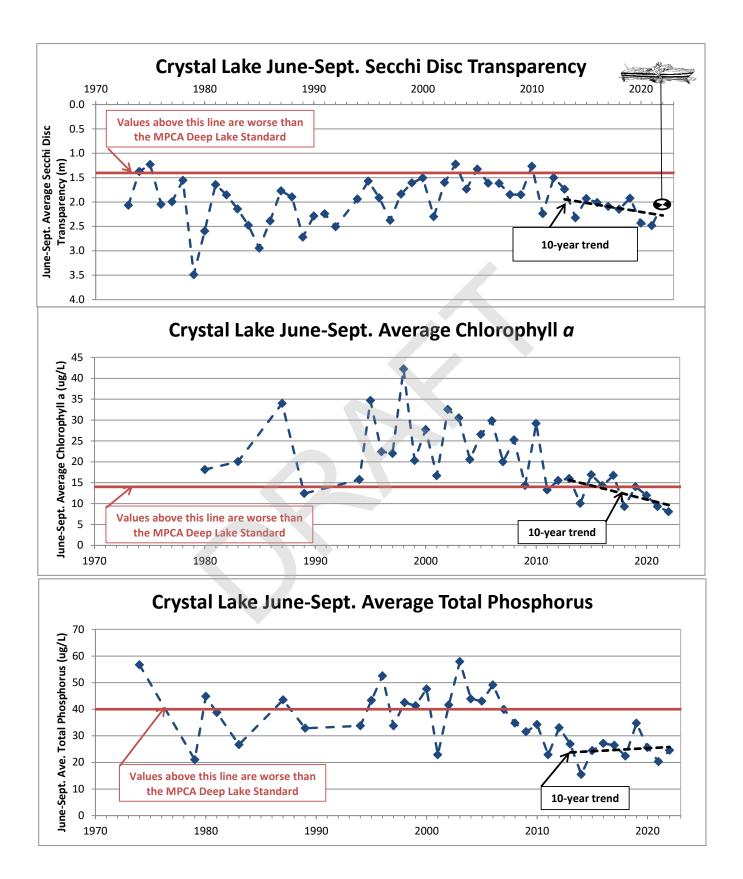

- Earley Lake (City of Burnsville)
- Twin Lake (City of Burnsville)
- Sunset Pond (City of Burnsville)
- Wood Pond (City of Burnsville)
- Lee Lake (City of Lakeville)

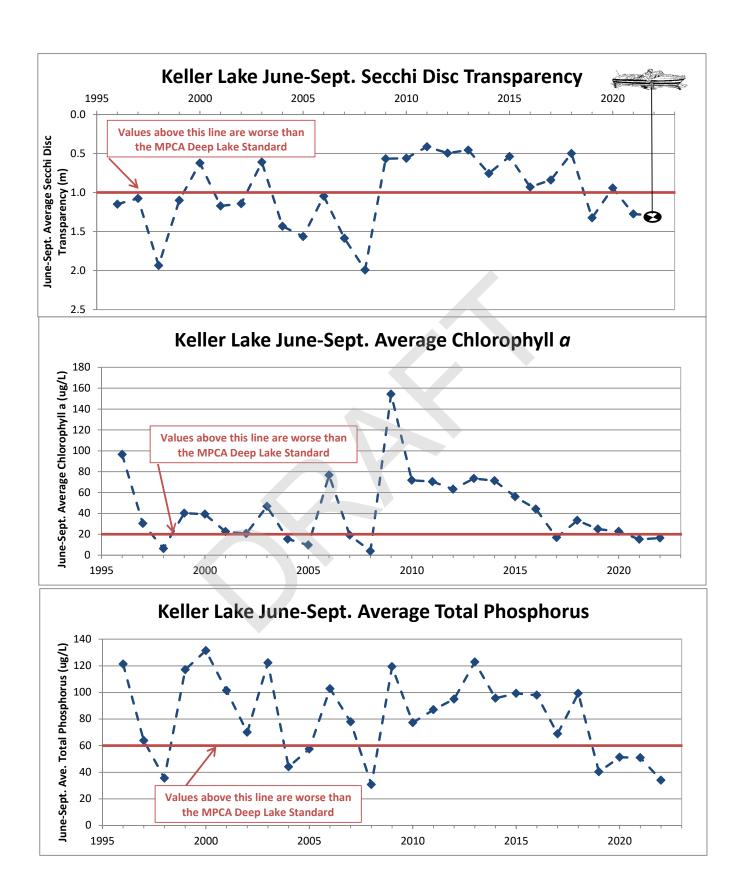

Results of the 2022 water quality monitoring of non-strategic water bodies is available from the Metropolitan Council's CAMP program at: <u>Advanced Search (state.mn.us)</u>.

# Table 3: Kingsley Lake 2022 Water Quality Data, Citizen-Assisted Monitoring Program Citizen-Assisted Monitoring Program

#### <u>Notes</u>

+1.9, +2.0 Secchi disk was resting on vegetation or lake bottom.

~9 Indicates result is an estimated value above the method detection limit, but below the method reporting limit.

3.2\* Result is suspect.
